

# MEMBER IN A STRONG COMMUNITY

AS-International Association, the organization  
for AS-Interface

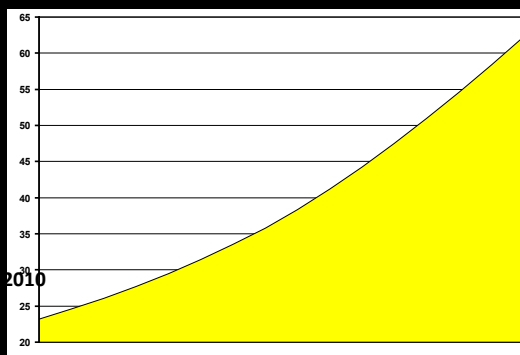

The future of  
Communication is digital.  
**And yellow.**

## AS-INTERFACE - THE USER ORGANIZATION

AS-International Association was founded in 1991 as a member organization for manufacturers and users of AS-Interface system solutions.

AS-Interface (ASi) provides an effective, powerful bus system. It combines all sensors and actuators on the lowest field level with the higher-level control, unrivaled simple, safe and consistent!

The AS-Interface user organization is the platform for the exchange of experiences between producers and users.

## AS-IINTERFACE SUCCESS IN FACTS

- More than **39 Mio.** AS-Interface devices are currently used in industrial environments
- More than **350** members/manufactures offer a broad variety of products
- More than **2.000** certified products use reliable diversity
- More than **8,5 Mio.** AS-Interface Safety devices in use

(State 2019)

## GENERAL ACTIVITIES

### FAIRS

Germany, Italy, China, Japan, USA...  
Take advantage of possibility to display your products at ASi-booths worldwide.

### WEBSITE

Reach potential customers with an eye for technology by showcasing your company and products on the ASi-Website.

### PUBLICATIONS

Interesting content in the AS-Interface books on technology, function and applications.

### TECHNICAL REPORTS/ PRESS RELEASES

Additional support for your activities.

### CERTIFICATION AND STANDARDIZATION

AS-Interface certification indicates that a product was developed according to the specification of AS-Interface. Certified products specify the AS-Interface Specification and have passed the AS-Interface „certification requirements“. The certificates represent a standard and high quality system.
