Success facts

**44 MILLION
AS-INTERFACE DEVICES**

More than 44 million nodes in
use worldwide

**2.200 CERTIFIED
PRODUCTS**

More than 2,200 certified products.
Multi-vendor solutions.

Why become a member?

USING THE ADVANTAGES.

By uniting manufacturers and users, AS-Interface became the world-leading system for facilitated integration of sensor and actuator technology. The system's continuous expansion and the advancement of the technology as well as the adaptation to new technological challenges is the foundation of our success. It is our goal to provide members with a technological edge and the best service.

- ✓ Access to and use of the current specification
- ✓ Updates for all technological documentations
- ✓ Use of AS-International owned patents for AS-Interface
- ✓ Support for in-house trainings

Support & Service

TRADE SHOW REPRESENTATIONS

.....

Joined booths at international trade shows are geared toward creating a communication platform for users and manufacturers: a first access for systems novices and a chance to introduce innovations. Use the opportunity to present AS-Interface products and solutions to an international audience.

Cost-effective and attractive trade show representations - from design to on-site support.

ONLINE PRESENCE

.....

www.as-interface.net, the global information platform for all topics concerning the AS-Interface system and its manufacturers.

Global overview of all manufacturers and partners.

In the **members section**, all open data such as the logo and general presentations as well as the current specification can be downloaded.

PUBLICATIONS

.....

Use the large variety of media options and publications to target relevant groups. From ASiMAG, the AS-Interface magazine, and the ASi-5 compendium to advertising brochures and flyers. Also, we gladly support you through our social media channels.

ONLINE PRODUCT CATALOG

.....

The complete AS-Interface product variety at your fingertips. Take advantage of the multi-vendor database and become part of our global market directory.

Promote your products and solutions in the online product catalog, the information base for users.

AS-Interface

Support & Service

TECHNOLOGY DOCUMENTATION

.....

As a member, you receive information about current updates and have access to the latest AS-Interface documentation. The provided documents offer design guidelines and supply fundamental information for product design. In addition to the current specification, testing requirements, profile descriptions, and additional product and system development documents are available.

CERTIFICATION

.....

Certified products are the foundation of approved investment security since these components operate within the framework of the AS-Interface specification and have been accordingly tested. The certification of AS-Interface components provides the manufacturer with the certainty that the device is approved as an AS-Interface system component on the market.

TRAINING

.....

The Virtual Academy teaches AS-Interface essentials online. From technology basics to ASi-3 technological expertise and ASi-5 technology.

A member has the option to give a lecture in seminars and workshops.

GLOBAL STANDARD

.....

AS-International is actively involved in creating and maintaining norms and standards. Supporting norms and standards facilitates market placement for AS-Interface products. The focus is on international standards such as IEC 62026-2 as well as on country-specific and product-specific standards. AS-Interface is standardized in IEC 62026-2. We collaborate regionally in developing country-specific standards and industry standards.

Get In Touch With Us

AS-Interface's success is based on the multitude of diverse products and solutions provided by our members. Compatibility and interchangeability creates long-term investment security for users.
